### SYNOPSIS

*\*oppressive male sponsored traditional system, a young princess dared to question inequality\**

Amina is an inspirational trilogy about a charismatic African warrior princess who championed the cause of her people with extraordinary courage and self-belief as an outstanding political and military leader to achieve her peoples' long cherished dreams of dominance over all of the Sub-Sahara.

Set in 15th Century Nigeria, young Princess Amina battles forces which have long relegated the female child to the background, to be seen and not heard. In an ancient world of brutal conflicts and suppressive timeless customs, she must resolutely carve out a part for her life in the face of scandalized tradition and antagonistic male dominance till she sits on the throne as sovereign queen.

Released exclusively on Netflix on the 4<sup>th</sup> of November 2021, the movie "AMINA" became an instant hit with a deafening buzz. It was well received globally that within one week it rose to become one of the top 10 most streamed films in the world on Netflix. It so far remains the first Nigerian film ever to make global top ten list.
